CAREER OBJECTIVES

I am a Computer Engineering student who will soon graduate. I am looking for an internship that is both challenging and enjoyable. I want to work in a dynamic environment where I can learn new skills, be motivated by my colleagues, and give my best effort to benefit both myself and the company.

EDUCATION

University of Engineering and Technology | Taxila   *October, 2019 – July, 2023*
BS Computer Engineering

SKILLS

- Programming(JavaScript, Python)
- Web development(HTML, CSS, BOOTSTRAP, TAILWIND, JAVASCRIPT, NODE JS, REACT JS, MONGO-DB)
- Software (MATLAB, Multisim, Proteus, Visual studio code , Anaconda)

STRENGTHS

- Quick Learner
- Goal Oriented
- Motivated

PERSONAL PROJECTS

WEB DEVELOPMENT PROJECTS:

- Ecommerce web app using MERN STACK
- A University Website Using HTML, CSS & JavaScript.
- A Blog Website Using HTML, Bootstrap, JavaScript NodeJS.
- Portfolio website using REACT.JS
- Currently working on development of Social Media web app using MERN STACK

INTERESTS

- Besides coding, I like to hang out with my friends and spend some time together
- In my spare time, I search different projects regarding web application development and try to understand the concepts by following the tutorial
